

Zeichencodes

Umlauts are used over vowels (a, o and u) to change the sound of the vowel.

It is common to see words written without the German umlaut, but with an 'e' after the vowel instead, for example Muenchen instead of München.

Windows ALT Codes

	Ä	Ö	Ü	
Alt +	0196	0214	0220	
	ä	ö	ü	ß
Alt +	0228	0246	0252	0223
